SP- SPECIALITY PLASTER							

SP-01	SPECIALITY PLASTER	EXTERNAL WALLS	PRODUCT: Lime Based Render THICKNESS: 30mm FINISH: Smooth troweled finish Note: Render to be supplied and mixed by contractor. Refer to specification for details.		BY BUILDER		C
SP-02	SPECIALITY PLASTER	INTERNAL WALLS	PRODUCT: Earth Based Render THICKNESS: 30mm FINISH: Smooth troweled finish Note: Render to be supplied and mixed by contractor. Refer to specification for details.		BY BUILDER		C
DOOR AND WINDOW							
The door/window glazing suite identified on the drawings for fire rated timber doors and windows is the Architects preferred suite. The performance of this suite is to be tested by the contractor with their chosen subcontractor. Under this package, the suitability of the preferred suite is to be assessed against the project specific wind loads, deflection and other implied loads. This to be obtained from either a suitably qualified and experienced structural engineer or a façade engineer engaged by the contractor/subcontractor. Any result that deems the preferred door/window suite as unsuitable must be reported to the architect prior to engagement. An alternate suite selection that is deemed suitable is to be presented to the Architect for approval.							
GL- GLASS							
GL-01	GLASS	EXTERNAL WINDOWS	PRODUCT: Switch Glass DIMENSIONS: Refer to door and windows schedule for details. FINISH: Grey Glass GLASS TYPE: Fire-resistant, Low E glazing. WARRANTY: 10 Years	All window glazing to comply with Bal 29 requirements.	SwitchGlass C: n/a E: wa@switchglass.com.au P: 9314 1303 LEADTIME: 10 weeks		C
